# LIVING LASIAN CML

# AGENDAS

1. Top 3 concerns of the AP group
2. How can the CML-AN help us regarding these concerns?
3. World CML Day

Should we use the kits, as is?

Can you suggest improvements?

# Participating Patient Organizations

1. Bangladesh 
2. Cambodia
3. China 
4. Hong Kong 
5. India 
6. Indonesia 
7. Japan 
8. Malaysia 
9. Nepal 
10. Pakistan 
11. Philippines 
12. So Korea  
13. Taiwan 
14. Thailand  
15. Vietnam 

# Top 3 Concerns

1. Access to Quality Treatment (Branded TKIs, Generic TKIs, Laboratory Standardization, Costs)
2. Treatment Free Remission (TFR)
3. Long-term Side Effects of 1G, 2G and 3G TKIs (tie)  
Limited/Lack of Government Assistances (tie)

*How can the CML AN help us?*

Recommendations: *How can the CML AN help us?*

## 1. Access to Quality Treatment (Branded TKIs, Generic TKIs, Laboratory Standardization, Costs)

- By inviting countries or POs to present individual success stories so that essential ingredients in productive lobbying can be identified/replicated
- Initiating a booklet detailing How a Laboratory Testing Facility can comply with International Standards
- CML AN to probably partner/source funding to make PCR tests affordable to patients. Initiative to established a standardized laboratory in resource-poor countries

Recommendations: *How can the CML AN help us?*

## 2. Treatment Free Remission (TFR)

- By sharing comprehensive and latest clinical data on 2G and 3G TKIs, patients can make educated decisions on the “success rate” if they are to decide to undergo TFR
- Embark on a regional program to educate physicians on the issues/conditions regarding stopping treatment
- CML AN to share the list of patients (with their permission) currently undergoing TFR so that potential applicants can converse with them initially
- CML AN can possibly sponsor some subjects from low-income countries

Recommendations: *How can the CML AN help us?*

### 3. Long-term Side Effects of 1G, 2G and 3G TKIs (tie)

- Initiate a data base survey of patients/physicians experiences, with the end-purpose of analyzing the hits and misses of individual strategies to combat side effects, as well as combination approaches
- Initiate a booklet on Long-term side effects of TKIs based on accepted data

Recommendations: *How can the CML AN help us?*

### 3. Limited/Lack of Government Assistances (tie)

- By inviting countries or POs to present individual success stories so that essential ingredients in productive lobbying can be identified/replicated.
- Active lobbying by CML AN, through an Endorsement Letter of Support, to a country whose government is not providing enough assistance
- CML AN initiative of a global-support letter for the UN/WHO to take notice of Goal 3 of SDG Goals addressing all major health priorities

## *Other ways forward...*

- To link CML Asia Facebook platform to CML AN website
- World CML Day Kit: Today, Together: with sub-title of Asia-focused challenges and concerns.
