

For Chronic Myeloid Leukemia Patient Group Advocates
Central and Eastern Europe and West Asia region,
December 2020

CML Atlas East Europe is the final product of East Europe and West Asia regional project run by the CML Advocates Network from 1st December 2019 to 31st March 2020.

The activity started with a regional survey reaching our Eastern European patient members addressing a sample of respondents of CML advocates and CML doctors based in 19 countries from the Central and Eastern EU region.

An online questionnaire was created by using cloud-based online survey development software to collect data on general information about CML, availability of TKIs, availability of PCR, running clinical trials, and treatment-free remission data.

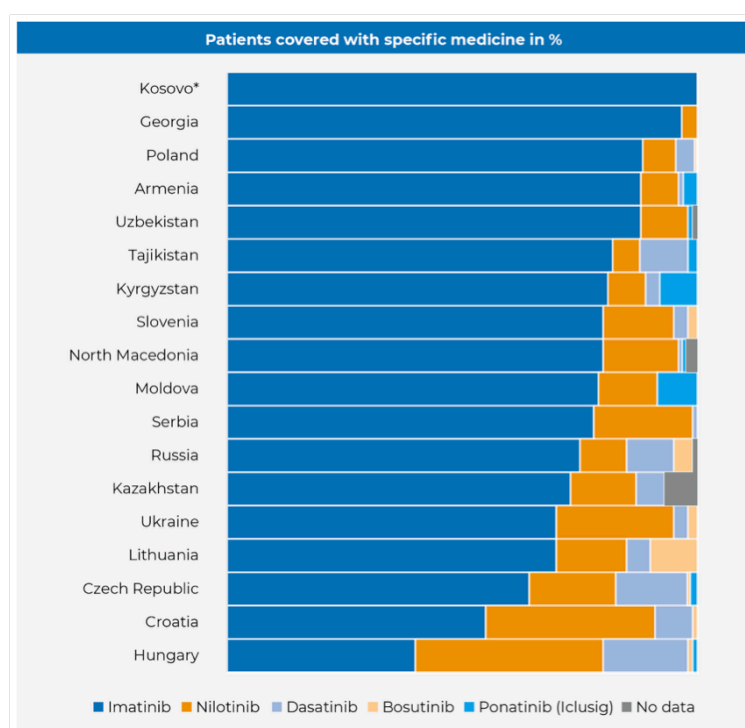

Results of this collection have been published on a website <http://ceatlas.cmladvocates.net> where we can navigate through the menu section and be informed about key topics and issues in the different countries.

General information about CML

In this section, you can find the number of CML patients, number of CML organisations in each country, number of hospitals treating chronic myeloid leukemia, number of treating hematologists, hospital registries and/or national registries, etc.

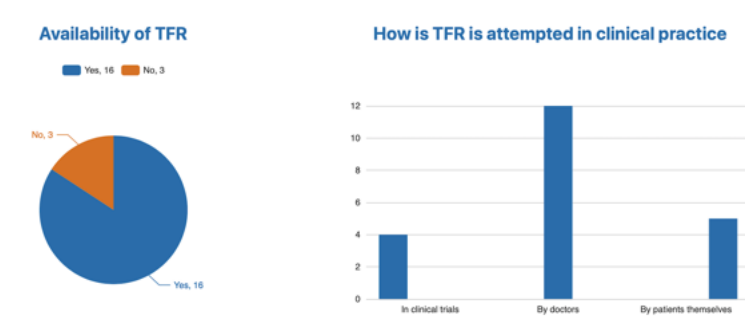

Availability and cost of medicines

List of available drugs, their different coverage and percentage of patients with access to each treatment and comparison of drugs' prices including coverage and donations.

PCR availability and prices

Prices and availability of PCR in the Easter Europe region countries including access levels and co-payments.

Treatment-free remission

Current situation of treatment-free remission (TFR): Availability and how TFR is attempted in clinical practice.

| Clinical trials | | | | |
|--|--------------|--------|----------------|--|
| Number of recruiting clinical trials in the country at the moment | | | | |
| 0 | 1 | 2 | DK | |
| Armenia | Ukraine (20) | Russia | Croatia | |
| Georgia | | | Czech Republic | |
| Kazakhstan | | | Hungary | |
| Kosovo* | | | Poland | |
| Kyrgyzstan | | | Turkey | |
| Lithuania | | | | |
| Moldova | | | | |
| North Macedonia | | | | |
| Serbia | | | | |
| Slovenia | | | | |
| Tajikistan | | | | |
| Uzbekistan | | | | |
| Number of ongoing, but not recruiting, clinical trials at the moment | | | | |
| 0 | 1 | 2 | DK | |
| Armenia | Russia | - | Croatia | |
| Georgia | Serbia (3) | | Czech Republic | |
| Kazakhstan | Slovenia (2) | | Hungary | |
| Kosovo* | Ukraine | | Poland | |
| Kyrgyzstan | | | Turkey | |
| Lithuania | | | | |
| Moldova | | | | |
| North Macedonia | | | | |
| Serbia | | | | |
| Slovenia | | | | |
| Tajikistan | | | | |
| Uzbekistan | | | | |

Clinical trials

Basic information on the ongoing clinical trials in all countries in the region.
