

## CML Horizons

- Hold CMLHZ in a country in Latin America
- Live interpreting in other languages (Spanish)
- Topics: Pediatric CML, Bone Marrow Transplant
- Elections to be held by region (as opposed to all delegates electing all SCR)

## Activities and projects

- Grants for projects
- Second generics study, with more time for delegates to collect samples
- More communication and follow-up on actions taken after projects we have participated in, such as surveys or studies.

## World CML Day

- Very useful, creates awareness in physicians
- More inclusive tagline

## Regional

- Skype regional meetings every 3 or 4 months
