HYBRID MEETING 2023

03 - 05 November 2023

Berlin, Germany

WELCOME **BACK** TO

CML

HORIZONS IN **GERMANY**

Welcome to Berlin, the capital of Germany

This is NOT what Germany is all about!

EUROPE
1945-1989

Prior to 1989,
Berlin was very different...

YOU
ARE
HERE

EUROPE

Finding traces of Berlin's (and Germany's) difficult past

Berlin: So much to see (if you had the time 😊)

- **City of science:**
4 public universities, 23 private universities, 22 technology parks, 70 non-university institutions (Fraunhofer, Helmholtz), 200.000 students, 2.000 start-ups
- **A city of thinkers:**
16 Nobel Prize laureates in chemistry, physics and medicine
- **More museums than rainy days:**
An average of 100 rainy days/year, but 175 museums
- **More bridges than Venice.**
- **Most multi-cultural city in Germany:**
20% of residents hold passports from other countries

Berlin: also a city of patient advocacy

“CURABLE BY RESEARCH”

Germany started late, but made huge advances in patient involvement in the past 5 years

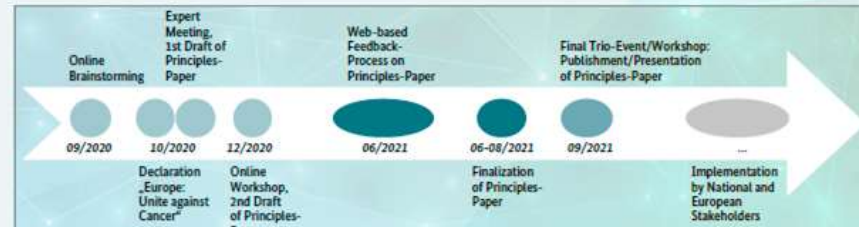

Trio Presidency of the Council of the European Union – Germany, Portugal and Slovenia
 Declaration on effective cancer research
 “Europe: Unite against Cancer”

Principles of Successful Patient Involvement in Cancer Research

September 2021

Preamble

This document is a compilation of input provided by cancer patients and researchers for cancer patients and researchers. It is intended to provide a first point of information with views and perspectives for all regional, national or international stakeholders in cancer research and patient advocacy across Europe who wish to strengthen active patient involvement in their respective fields of activity. In this paper, the term “involvement in research” is used with reference to interpretations by the UK National Institutes of Health Research (NIHR)¹.

ALLIANZ FÜR PATIENTENBETEILIGUNG IN DER KREBSFORSCHUNG

Learn! Share! Grow!

Wishing you a great CML Horizons
2023 in Berlin.

Every life counts.
