Welcome to Lithuania

labas

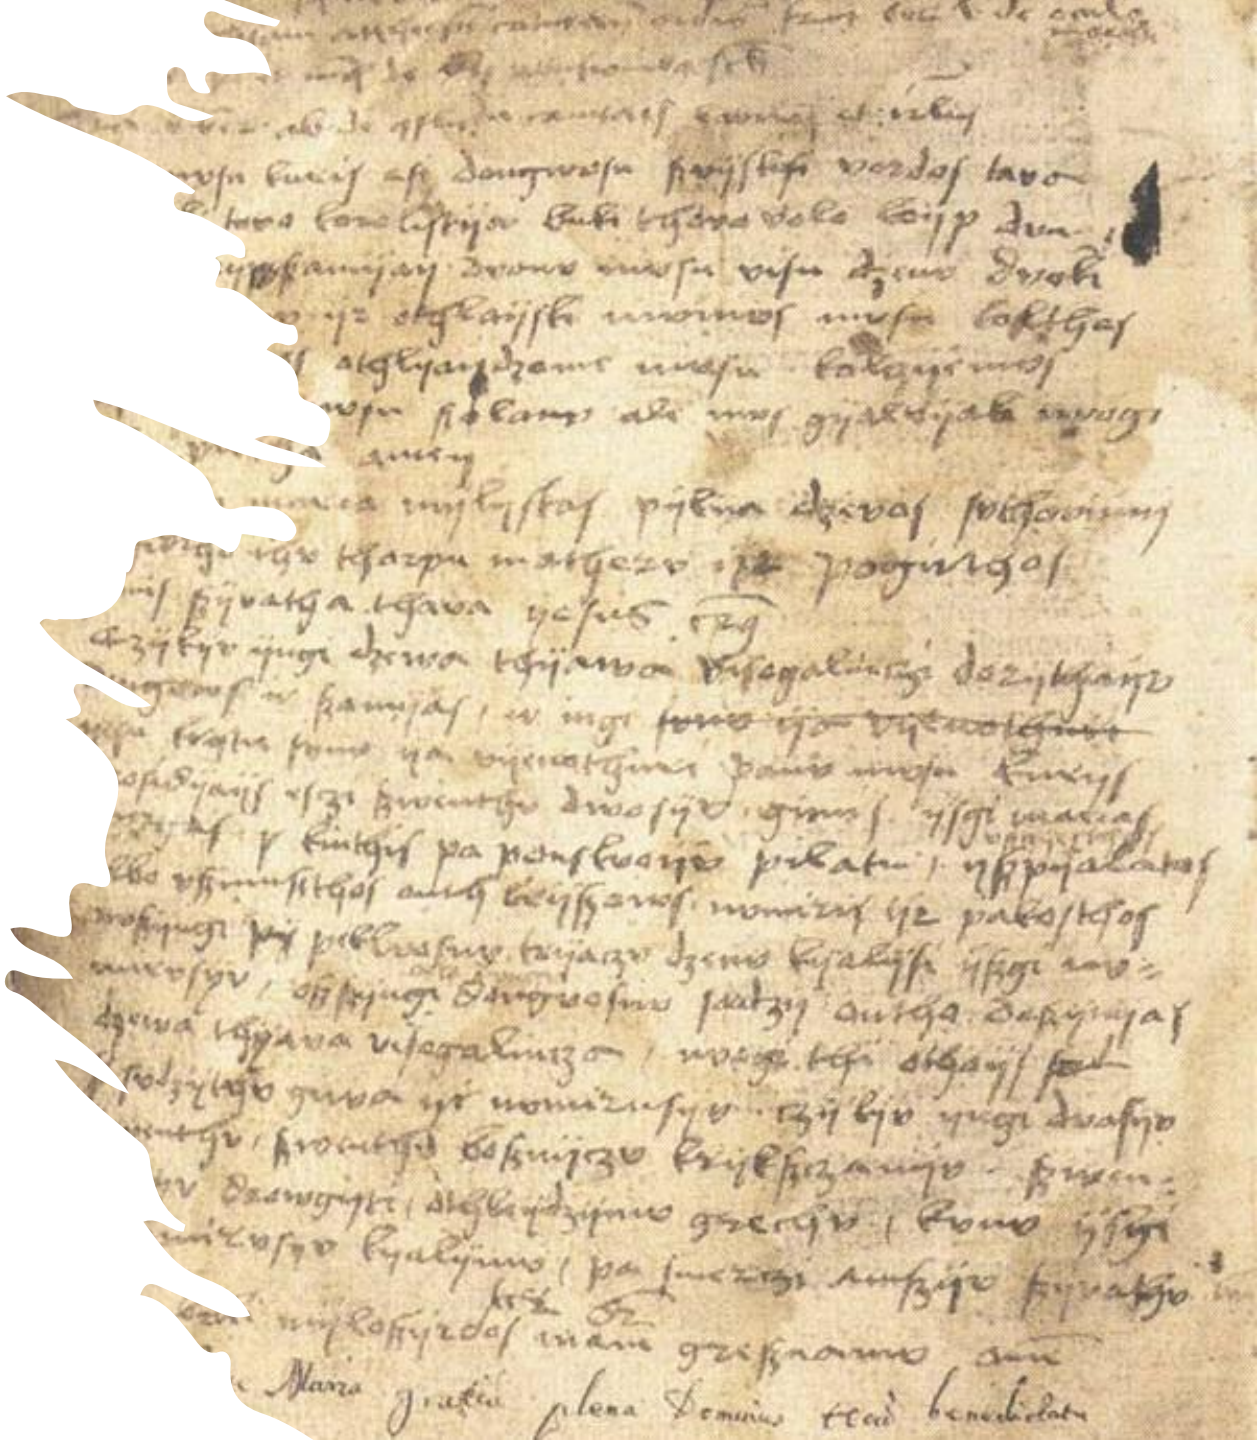
ačiū

1. An Ancient Language

The Lithuanian language is one of the oldest in the world pre-dating many Latin-based languages

Lithuanian has many links to Sanskrit, with many of the words dating back to at least 3500 B.C

Lithuanian has remained relatively unchanged over the past millennia



2. Last pagans in Europe

- Lithuania is the last country in Europe to adopt Christianity as its religion
- There were 8 crusades against Lithuania between 1283-1410, all failed

3. Basketball is a “religion” in Lithuania
